SPECIALTY DRUGS:

How do I use the Navitus SpecialtyRx Program?

The Navitus SpecialtyRx program serves members who are taking medicine(s) for certain chronic illnesses or complex diseases. This program is part of your pharmacy benefit and is mandatory. Ordering new prescriptions through Navitus' specialty pharmacy partner, **Lumicera Health Services**, is simple. Just call a Patient Care Specialist at 1-855-847-3553 to get started.

To eliminate potential drug waste to the plan and members, we recommend limiting the days' supply for your specialty medications to a 31-day supply or less. Specialty medications are expensive and have a high discontinuation rate because of side effects. If more than a 31-day supply is purchased, thousands of dollars in medications could potentially be discarded.

How do I refill my Specialty Prescription?

Lumicera will contact you when you have 7 days remaining of your medication. If you only have 7 days remaining of your medication and you have not heard from them, you may contact them at 1-855-847-3553. Please have your prescription number(s) ready to place your order. Please remember to inform the Specialist of any insurance changes, address changes or the need to rush your order.

ID CARDS:

Can I use my health plan card to fill prescriptions at my pharmacy?

No. You are required to present a Navitus ID card to the pharmacy when you fill a prescription. You can request replacement cards from Navitus by calling Customer Care toll-free at 1-866-333-2757.

Who do I call to change my ID card information?

Please call your school district if any information on your ID card needs to be changed.

Who do I call to request additional cards?

Please call Navitus Customer Care who can be reached toll free at 1-866-333-2757. They will mail you a new ID card. You should receive the new card within 7-10 calendar days from the date of your request.
