Edupreneur Institute

Edupreneurs are global-minded educators with a passion for learning who are committed to sharing ideas, strategies, and expertise with colleagues in and beyond their schools. Through the use of technology and social media, educators have more opportunity to build their entrepreneurial skills and contribute to the field in meaningful and exciting ways.

This institute will bring the edupreneurs in our region together to learn, grow, and explore new avenues for entrepreneurship in education. Session presenters will provide guidance for those considering pathways for expanding their reach. Current edupreneurs will develop a network of support with educators at all levels who are exploring an expansion of their reach and leveraging their expertise into publishing, social media, and consulting roles.

July 23, 2020 | 8:30 am – 3:30 pm
